Dear Mr Brzezinski,

We write to convey to you and the South Australian Polish community our best wishes for Poland's Independence Day on 11 November.

On this day in 1918, after 123 years of occupation, Poland regained its independence after being partitioned by Austria, Germany and Russia. Independence Day celebrations honour Poland's rich history and long-standing commitment to democratic values and provide an excellent opportunity to reflect on the tremendous contributions the Polish community has made to our state's rich and diverse heritage.

South Australia and Poland enjoy strong and friendly relations, and important economic and cultural ties. It is this connection that enables us to work together and continue to develop opportunities for the future.

We appreciate the immense pride you, your family and friends will be feeling as you celebrate Poland's Independence Day. We extend our best wishes and thanks to you and our entire Polish community for your ongoing contributions to enrich South Australia as a vibrant multicultural state.

May your Independence Day celebrations this year be safe and festive, enjoyed in the company of family, friends and community.

Yours sincerely,

Hon Steven Marshall MP
PREMIER OF SOUTH AUSTRALIA
